

National Chemistry Week at UW-Washington County

October 20-24, 2008

"HAVING A BALL WITH CHEMISTRY: THE CHEMISTRY OF SPORTS"

Sponsored by the UW-WC Chemistry Department & Science and Math Club

All Week: Student Science Poster Exhibits, Displays and Reports that present the role of chemistry in the students' favorite sports, such as baseball, basketball, bowling, cycling, golf, gymnastics, hockey, horseback riding, judo, jogging, scuba diving, skiing, tennis, etc.

Wednesday October 22, 12:00-1:00 pm, Collins Science Hall (Rm. 228): Student Science Demonstrations covering a wide range of fun, interactive, and hands-on experiments, such as: test your reaction time in sports; impact and puncture testing of polymers used in different sport helmets; endurance and lung capacity; electrolytes of sport drinks; ball bounceability; etc. with the following student presenters: **Joshua Gagnon-Palick, Chris Kanios, Randi Ruppert, Andrew Killeen, Adam Roehl, and Michael Stecker.**

For more information, contact Dr. Mohamed Ayoub, Associate Professor of Chemistry, 262-335-5250 ext. # 234, mohamed.ayoub@uwc.edu
